Delores Sorensen
Box 1442
Tumbler Ridge, BC V0C 2W0

Dear Delores:

Further to our meeting this past summer, I enclose documents that I obtained in response to the Freedom of Information Act request that I made regarding the Shell Bullmoose well.

I have enclosed a copy of my original letter to give you a sense of the scope of the request that I made. I've also enclosed copies of the documents that I received by mail from the OGC in response to that request, as well as copies of documents that I obtained from the OGC's file folder for the Bullmoose well, which they made available to me on September 27 in Vancouver. That folder contained several inches of material not particularly relevant to the incidents of last August. I selected records for photocopying that I thought might be of interest to you and the Getzs, including reports from a lab of gas analysis, well activity documentation for the relevant time period during August, well status reports (again for the relevant time period), and a copy of the flaring approval conditions issued by the OGC.

I do not have sufficient expertise to form an opinion as to whether this information is useful and/or confirms your concerns. I therefore provide it to you for whatever use you can make of it.

Sincerely,

Timothy J. Howard
Staff Lawyer
